## Call for Workshop Proposals

10th Terminology and Knowledge Engineering Conference (TKE 2012)

19th - 22nd June 2012

Madrid, Spain

---

TKE 2012 will be the 10th edition of this conference that started out under the auspices of TermNet, and has developed towards wider fields in knowledge transfer for special language communication in a multilingual global society. In this context, interdisciplinary research emphasizing the intersection of different disciplines dealing with terminological aspects and knowledge engineering resources online is welcome.

Co-located workshops at TKE conferences are distinguished meeting points for discussing ongoing work and latest ideas related to terminology and knowledge engineering.

---

### General Information and criteria

---

The decision on acceptance/rejection of workshop proposals will be made on the basis of the overall quality of the proposal as well as of how it fits in with the conference. The organizers of successful workshops will be responsible for their own reviewing process, publicity (e.g., website and call for papers), and proceedings production. They will be required to closely cooperate with the conference organizers to finalize all organizational details. Workshop attendees must pay the TKE 2011 workshop registration fee, as well as the conference registration fee.

Criteria for workshop proposals:

- Co-located workshops cover topics falling in the general scope of the TKE conference.
- Workshops are intended to be genuine interactive events and not mini-conferences.
- We welcome workshops with creative structures and organizations that attract various types of contributions and ensure rich interactions.
- They are clearly focused.
- There is potentially a significant community interested in the workshop's topic.
- Workshop duration can be half a day or a full day.
- We advise having more than one organizer and no more than four, preferably from different institutions, bringing different perspectives to the workshop topic.

---

### Submission Guidelines

---

Workshop proposals must be no more than 3 pages in length, in txt or PDF format, must be sent via email to Raúl García Castro (rgarcia@fi.upm.es), and should contain the following information:

- The title and brief technical description of the workshop, specifying its goals and motivation.
- A brief discussion of why the topic is of particular interest at this time.
- A brief description of why and to whom the workshop is of interest, the workshop audience, as well as the expected number of participants.
- A brief description (draft outline) of the proposed workshop format, discussing the mix of events such as paper presentations, invited talks, panels, and general discussion.

- A list of (potential) members of the program committee (at least 50% have to be known and confirmed at the time of the proposal).
- An indication of whether the workshop should be considered for a half-day or full-day event.
- If there have been previous editions of the workshop, their short description, including URLs as well as some statistics about submissions and acceptance rate.
- The names and contact information (web page, email address) of the proposed organizing committee and short description of their relevant experience. The organizing committee should also inform about whether they plan to prepare a workshop web site or the workshop information will be included in the main conference website.

#### Important Dates (11:59 pm Hawaii time)

---

Workshop Proposals Due: January 25, 2012

Notification of Acceptance: February 10, 2012

Workshop Website Due: February 25, 2012

Workshop Camera-ready Proceedings Due: June 1, 2012

Workshop Day: June 19 or 22, 2012

#### Workshop Chair

---
